

# Ehnand Azucena

## Full Stack Developer | Backend-Focused

Philippines (UTC +8) | Initao, Northern Mindanao 9022 | +639534678287 | [contact@ehnand.com](mailto:contact@ehnand.com)  
[Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Full Stack Developer trusted with high-stakes builds: won a competitive Philippine government bid to deliver a municipal water-billing platform, and ships production LLM/RAG systems (Gemini, OpenAI, LlamaCloud) for enterprise clients across Australia, Switzerland, the UAE, and the US. Strong in TypeScript, PostgreSQL optimization, and payment/API integration (Stripe, Xero, HubSpot).

## Professional Experience

### Full Stack Developer

Jan 2025 – Present

*ClouDesk Pty. Ltd | Remote | Sydney, NSW Australia 2000*

- Lead backend of MemberPulse, a multi-tenant SaaS for Australian professional associations (CPD tracking, job boards, events, subscription billing) on Symfony and PostgreSQL.
- Integrated Stripe, Xero, HubSpot, and PayPal for cross-tenant payments, CRM sync, and automated invoicing.
- Stabilized PG Pay, a high-value precious-metals e-commerce platform — resolved critical transaction-reliability and payment edge-case failures.

### IT Specialist

Jul 2024 – Jan 2025

*EduQuest Inc. | Cagayan De Oro City, Northern Mindanao, Philippines*

- Re-architected the LMS on Laravel, cutting downtime 20% and lifting engagement 30%.
- Automated administrative reporting via Google Sheets/Gmail APIs, eliminating 40% of manual data processing.
- Led onboarding of 200+ staff, students, and parents, driving a 50% increase in LMS adoption.

### Software Development Intern

Jan 2024 - May 2024

*MORESCO-1 | Poblacion, Laguindingan, Misamis Oriental*

- Built HRIS and helpdesk features on Laravel and SQL Server; optimized slow employee-record queries to speed the HRIS dashboard.

## Selected Projects

(Representative highlights complete list & full case studies at [ehnand.com](https://ehnand.com))

### [Adam AI — Multi-Tenant B2B Document Intelligence SaaS](#)

**Full Stack Developer** — Switzerland-Based Client | **Mar 2026 – Present** | TanStack Start (React 19), TypeScript, PostgreSQL 16, Hetzner

- Architected a module marketplace where tenants subscribe to and commission custom modules — a revenue-sharing ecosystem between publishers and the platform.
- Built agentic AI document pipelines (email ingestion → AI classification → LlamaCloud extraction → auto-matching), cutting tenant onboarding from days to under an hour.

### [REPSShield — AI-Powered Real Estate Tax Compliance Platform](#)

**Full Stack Developer** — US-Based Client | **Aug 2025 – Sep 2025** | React 18, Node.js/Express, TypeScript, PostgreSQL 16 (Neon)

- Engineered three AI modes: agentic time-tracking with tool-calling, RAG advisory over 282 IRS documents with citation-backed answers, and a 14-check IRS examiner simulation.
- Built multi-provider AI failover, calendar/email sync, and cross-platform mobile apps via Capacitor.js.

### **Water Billing System — Government Enterprise Platform**

**Full Stack Developer** — LGU-Initao | Feb 2026 – Present (Deployed) | Laravel 12, PHP 8.2+, MySQL 8,

- *Delivered the full billing lifecycle: registration, meter reading with photo/QR capture, automated bill generation, and a double-entry accounting ledger.*
- Built an offline-first mobile API (Laravel Sanctum) for field meter readers in low-connectivity areas, with role-based access, audit logging, and municipal reporting exports.

### **Swiss Energy Platform Suite — Document Reconciliation & Financial Matching**

**System Engineer** — Petrol Tech GMBH (Swiss Petrol Station) | Dec 2025 – Present | Node.js, MongoDB

- Consolidated 20 reconciliation services into one mono-repo, automating daily matching of thousands of transactions across 3 terminal systems and 4 settlement providers.
- Added an AI-powered document-ingestion pipeline and VAT invoice generation; deployed on Hetzner with PM2 and GitHub Actions CI/CD.

### **Core Technical Skills**

- **Languages:** TypeScript, PHP, Python, C#, SQL
- **Backend:** Node.js, NestJS, Laravel, Symfony
- **Frontend:** React 19, Next.js, TanStack Start, Tailwind CSS
- **Databases:** PostgreSQL 16, MySQL 8, SQL Server; Drizzle, Prisma; query optimization
- **AI/LLM:** RAG pipelines, agentic tool-calling, LlamaCloud, Gemini, OpenAI, Vercel AI SDK, YOLO (Object Detection)
- **Payment/API's:** Stripe, Xero, HubSpot, PayPal; REST, GraphQL, WebSockets
- **Infra/DevOps:** Docker, Nginx, CI/CD (GitHub Actions), Cloudflare Workers, Hetzner, AWS, PM2

### **Education**

**Mindanao State University – Naawan** | 2024 Bachelor of Science in Information Technology, Major in Database Systems | Cum Laude

### **Certificates**

- [Cosmic Coding with Symfony 7](#), [Symfony 7 Fundamentals](#), & [Doctrine](#), [Symfony 7 & the Database](#) - *SymfonyCasts* (Mar. 2025)
- [React Basics](#) & [Advanced React – Meta](#) (Jan. 2025)
